The 43rd District Democrats will take another step toward effective grassroots democracy this month by drafting amendments to its platform in open meetings. The first three meetings, Sunday February 26, Tuesday February 28, and Wednesday March 1, will be devoted entirely to drafting amendments to the 2004 County Platform. The fourth meeting, Saturday March 4, will elect delegates from each precinct to the 43rd District and County Conventions, and will vote on resolutions. The delegates elected that day will meet in the District Convention April 22 to debate, amend and adopt the final Platform.

"The 43rd stunned the political community in 2004 by involving 9,000 people in its precinct caucuses," said district chair Dick Kelley. Any registered voter in the 43rd who signs in as a Democrat may participate."

2004 King County Platform
We are the Democrats — the party of the people

Preamble

This platform is a declaration of human rights, justice and equality for all. We affirm the rights guaranteed by the Constitution and the Bill of Rights, and expect government at all levels to champion these rights. We cherish freedom of speech and expression as fundamental blessings of liberty. We recognize that our strength rests upon respect for diversity in all forms. Government must be open and accountable to the people. We adopt this platform so the public and candidates for office understand our Democratic ideals.

Civil and Human Rights

In the inalienable rights of all adults to enter into loving relationships with the person of their choice, regardless of their gender or gender identity and that local, state and federal governments must recognize the relationships of same-gender couples, granting all couples equal rights under the law, including the right to marry and all the rights associated with marriage.
6. In the separation of religion and state and oppose organized prayer in public schools and granting of public money to religious charities or schools which require a profession of faith or act of worship as a condition of participation.
7. Any immigration policy that denies civil and/or human rights or educational opportunities to immigrants and their children be opposed, regardless of their immigration status.
8. Any efforts to legislate English as the official language disregard cultural pluralism, deprive those in need of education, social services and employment, and must be challenged.

Economic Justice

We believe ..

1. No public services such as education, public safety, utilities, parks and human services should be privatized, outsourced or off-shored.
2. Taxes are a privilege of citizenship and are required to support the infrastructure and provide a high quality of life for all.
3. Government should ensure universal access to basic services such as adequate housing, adequate medical care, means of transportation, health and auto insurance, utilities, education and safe working conditions.
4. In reversing the growing gap between the rich and the poor, which has been fueled by the downward trend in wages, soaring executive pay, and increasingly regressive taxes.
5. Washington needs a more progressive tax system, where those who have more share a higher percent of the tax burden, including personal and corporate income tax, and reduced sales and business and occupation taxes.
6. Government has a public trust to use tax dollars wisely.
7. Economic policies and business practices should promote creation of living-wage jobs and sustainable economic growth, which does not damage the environment.

8. In opposing covert efforts to de-stabilize other national governments.

9. The GATT, NAFTA, WTO and FTAA agreements are seriously flawed and should be renegotiated to incorporate human rights, labor rights, uphold existing environmental law, transparency at all levels, and basic democratic procedures accountable to the public.

10. The U.S. government should work multilaterally to eliminate terrorist networks and resolve international conflicts through diplomacy and international institutions such as the United Nations, rejecting unilateral preemptive war as a means.

Law and Justice

We believe ...

2. Criminal justice emphasis should include preventative and rehabilitative measures.

lenge of serving our country regardless of income level.

1. Ensuring adequate human services is among the highest priorities of government, especially for those on the margins of society, including children, the elderly, and people who are impoverished, homeless, mentally ill, disabled or living with addictions.
2. In supporting welfare reform that will reduce poverty, not just the welfare rolls. Quality affordable childcare, education, training and substance abuse treatment must be provided to help working parents get off welfare.
3. In galvanizing the political will to end homelessness in our communities. It is the government's responsibility to take the actions necessary to ensure that all people have safe and affordable housing. Affordable housing subsidies should be targeted at those who make 50% or less of the Area Median Income.
4. Public assistance (General Assistance-Unemployable/GA-U) and Medicaid to safeguard the vulnerable poor and people with disabilities who cannot reasonably provide for themselves.
5. Family planning and science-based sex education re effective tools that must be made available to give individuals and families control over their reproductive positions.
